

# ROLL-UP TRAVEL BAG

## INSTRUCTIONS

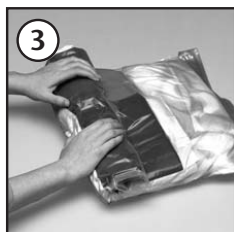

Please read instructions carefully before using your Roll-up Travel Bag

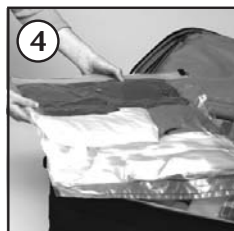

**1** **Pack** - Items should be completely dry before packing for long-term storage. If packing wet items for travel, first remove all excess water. Move Sure-Zip™ slider to one end of zipper before opening bag. Pull bag gently apart from center of zipper. **DO NOT FILL ABOVE INDICATED LINE.**

**2** **Seal** - To seal, move Sure-Zip™ slider to one end of zipper and back again.

**3** **Remove the Air** - Roll the bag toward bottom, expelling air through the one-way valve and flattening compressible items. Squeezing the air out of bulky items will let you pack up to twice as much.

**4** **Stow** - flat, rolled or folded in your luggage, briefcase, gym bag, closet, drawer, etc. Great for long or short trips as well as home storage.

**Re-opening** - Pull gently apart from center of the zipper. With careful handling this product is reusable again and again.

### PRECAUTIONS:

1. Keep out of the reach from children.
2. Do not puncture bag.
3. Do not use to store food, leather or items made of fur.
4. Down filled items should only be reduced to 50% as further compression can hurt down.
5. Do not store bag near sharp objects, heat sources or in temperatures above 130°F (54.4°C).
6. If you have any questions about the possible effects of vacuum storage on specific items, consult the manufacturer of that item.

**Quality Guarantee** Space Bag® travel pack will be completely free of manufacturing defects for a full year from date of purchase or we'll replace it. Manufacturer assumes no liability for damage to items stored in Space Bag® travel pack. The user is fully responsible for determining the potential effect of vacuum storage on any item and the proper use of this product.
