VACUUM-SEAL STORAGE BAG

INSTRUCTIONS

Please read instructions carefully before using your Vacuum-seal Storage Bag

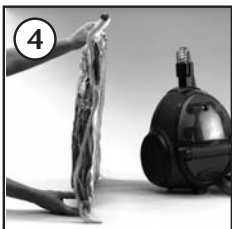

1 **Pack** - Items should be completely dry before packing them for long-term storage. **DO NOT FILL ABOVE INDICATED LINE** or you may stretch the zipper.

2 **Seal** - Gently slide Sure-Zip™ slider to one end of zipper and back again for airtight and watertight protection.

3 **Vacuum out the Air** - Remove cap from air valve. Insert vacuum hose into round opening. Turn on vacuum to remove appropriate amount of air. Please note: If you find the bag has "inflated" repeat steps 1 and 2.

4 **Store** - in your closet, under bed, garage, almost anywhere.

Re-opening Pull gently apart from center of the zipper. With careful handling this product is reusable again and again.

Tips for Handling and Storing

- Do not hold or carry a sealed bag near zipper.
- Hold the bag vertically to minimize stress on the zipper.
- Store the bag in vertical or flat position with the zipper up.

PRECAUTIONS:

1. Keep out of the reach from children.
2. Do not puncture bag.
3. Do not use to store food, leather or items made of fur.
4. Down filled items should only be reduced to 50% as further compression can hurt down.
5. Do not store bag near sharp objects, heat sources such as on top shelves of closets near light bulbs or in temperatures above 130°F (54.4°C).
6. If you have any questions about the possible effects of vacuum storage on specific items, consult the manufacturer of that item.

Quality Guarantee Space Bag® storage pack will be completely free of manufacturing defects for a full year from date of purchase or we'll replace it. Manufacturer assumes no liability for damage to items stored in Space Bag® storage pack. The user is fully responsible for determining the potential effect of vacuum storage on any item and the proper use of this product.
